

# hAP ax GPON

Give your clients the performance they expect. hAP ax GPON is a feature-rich GPON ONT with dual-band Wi-Fi 6, powerful routing, and seamless TR-069 support for effortless remote management. For example, you could have your clients using the same webpage for bills and Wi-Fi options.

It's a cost-effective, high-speed fiber solution running the most flexible networking software on the market — built to satisfy even the most demanding users. And like all MikroTik products, it's made to last—no planned obsolescence, no paywalls, no subscriptions. Just reliable performance and lifetime support.

## • Specifications

Product name	hAP ax GPON
CPU	EN7529CT 2000 MHz
CPU Architecture	ARM
RAM	DDR3 512 MB
Storage	128 MB NAND
Number of 1G Ethernet ports	5
GPON ONT	1
USB	1 (USB type A)
Switch chip model	EN7529CT
Wireless interface model	MT7916 (2.4 GHz), MT7976 (5GHz)
Wireless	2.4 GHz 802.11b/g/n/ax dual-chain, 5 GHz 802.11a/n/ac/ax dual-chain
Number of DC inputs	2 (DC jack, PoE-In)
DC jack voltage	12-28 V
PoE-In voltage	18-28 V
Max power consumption (without attachments)	13 W
PoE-in	Passive PoE
PoE-Out	Passive PoE
Smart PoE	Injector
PoE-out ports	Ether5
Operating temperature	-40°C to +70°C
